ARTICLE IV

4. A person acting in one of the Contracting States on behalf of an enterprise of the other Contracting State - other than an agent of an independent status to whom paragraph 5 applies- shall be deemed to be a permanent establishment in the first-mentioned State if he has, and habitually exercises in that State, an authority to conclude contracts in the name of the enterprise, unless his activities are limited to the purchase of goods or merchandise for the enterprise.

5. An enterprise of one of the Contracting States shall not be deemed to have a permanent establishment in the other Contracting State merely because it carries on business in that other State through a broker, general commission agent or any other agent of an independent status, where such persons are acting in the ordinary course of their business.

6. The fact that a company which is a resident of one of the Contracting States controls or is controlled by a company which is a resident of the other Contracting State, or which carries on business in that other State (whether through a permanent establishment or otherwise), shall not of itself constitute either company a permanent establishment of the other.

ARTICLE V

1. The industrial or commercial profits of an enterprise of one of the Contracting States (including gains derived from the sale of the enterprise or of a part of the enterprise or of an asset owned by the enterprise) shall not be subject to tax in the other Contracting State unless the enterprise carries on a trade or business in that other State through a permanent establishment situated therein. If it carries on a trade or business in that other State as aforesaid, tax may be imposed on those profits in the other State but only on so much of them as is attributable to that permanent establishment.
2. The share of the industrial or commercial profits of a partnership accruing to a partner therein who is a resident of one of the Contracting States shall likewise not be subject to tax in the other Contracting State unless the undertaking carries on a trade or business in that other State through a permanent establishment situated therein. 3. Where an enterprise of one of the Contracting States carries on a trade or business in the other Contracting State through a permanent establishment situated therein, there shall be attributed to that permanent establishment the industrial or commercial profits which it might be expected to derive in that other State if it were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length with the enterprise of which it is a permanent establishment. Such industrial or commercial profits will in principle be determined on the basis of the separate accounts pertaining to such establishment. In the determination of the net industrial or commercial profits of the permanent establishment there shall be allowed as deduction all expenses which are reasonably allocable to the permanent establishment, including executive and general administrative expenses so allocable.
4. The taxation authorities of the taxing State may, when necessary, in execution of paragraph 3 of this Article, rectify the accounts for taxation purposes, notably to correct errors and omissions or to re-establish the prices or remunerations entered in the books at the value which would prevail between independent persons dealing at arm's length.
5. If a permanent establishment does not produce accounts showing its own operations, or the accounts produced do not correspond to the normal usages of trade in the State where the establishment is situated, or the rectifications provided for in paragraph 4 of this Article cannot be effected, the taxation authorities of the taxing State may determine the net industrial or commercial profits by applying such methods to the operations of the establishment as may be fair and reasonable in the execution of paragraph 3 of this Article.
6. To facilitate the determination of industrial or commercial profits attributable to the permanent establishment, the competent authorities of the Contracting States may consult together with a

view to the adoption of uniform rules of attribution of such profits according to the laws of the Contracting States.

7. Where a company which is a resident of Austria and whose activities do not lie solely or mainly in the United Arab Republic has a permanent establishment in the United Arab Republic, any profits attributable under paragraph 3 to that permanent establishment may be subject to the United Arab Republic tax on income from movable capital, the defense tax and the supplementary taxes, inasmuch as such profits are according to the following provisions considered to have been distributed:-

The total net profits of such a permanent establishment which would be liable to the United Arab Republic tax on commercial and industrial profits without applying the provisions of Article 36 of Law 14 of 1939 shall be considered to have been distributed in the United Arab Republic within 60 days from the closing of the financial year. 10 per cent of that net profit may, however, be set aside to form a special reserve. Such reserve has to be entered in the local balance sheet submitted annually to the United Arab Republic taxation authorities. Any amount set aside to such reserve shall only be subject to the tax on commercial and industrial profits in the United Arab Republic. All sums deducted from the aforesaid reserve for purposes other than the redemption of losses incurred in the trade or business carried on by that permanent establishment situated in the United Arab Republic shall be deemed to have been distributed in the United Arab Republic and shall be taxed accordingly.

8. The provisions of paragraph 7 cease to be effective whenever in the United Arab Republic profits which are distributed out of a company's profits of the same taxable year (not distributed out of accumulated reserves or other assets) cease to be deductible from the amount of the company's taxable income or profits subject to the tax on commercial and industrial profits.
9. A company whose activities in the meaning of paragraph 7 do not lie mainly in the United Arab Republic means any company whose activities are carried out less than 90 per cent in the United Arab Republic through a permanent establishment situated therein.
10. Paragraphs 7 and 8 also apply to profits accruing to a sleeping partner of a partnership corresponding to a partnership with limited liability of the United Arab Republic law.
11. Paragraphs 1, 2 and 3 shall not be construed as preventing one of the Contracting States from imposing, pursuant to this Convention, a tax on income (e.g., dividends, interest, income from immovable property or royalties) derived from sources within its territory by a resident of the other State if such income is not attributable to a permanent establishment in the first mentioned State. Such income, if attributable to a permanent establishment, shall be taxed separately or together with the industrial or commercial profits of the permanent establishment in accordance with the laws of the Contracting States.

ARTICLE VI

1. Where

- (a) an enterprise of one of the Contracting States participates directly or indirectly in the management, control or capital of an enterprise of the other State, or
